

SYNCHRONIZATION OF ENERGY CAPTURE RECEIVERS FOR UWB APPLICATIONS (TueAmOR4)

* **Author(s) :** Cecilia Carbonelli (University of Pisa, Italy)
Umberto Mengali (University of Pisa, Italy)

* **Abstract :** The paper investigates simple timing recovery schemes for M-PPM non-coherent ultra-wideband receivers. Their performance is assessed by simulation over realistic multipath channels. The degradations due to timing errors are found to be marginal.
